ENRICHING EXPERIENCES FOR OUR GUESTS AND OUR ENVIRONMENT

We believe that a responsible meeting is not only what you experience in the meeting room but also knowing that your hotel respects the destination around it.

We're proud to partner the leaders in geotourism, the National Geographic Center for Sustainable Destinations. Our ambition is that guests enjoy enriching experiences that reveal what makes a place truly special – its heritage, culture and tradition – and the importance of protecting it.

At InterContinental we use a holistic approach to being a responsible business: to work from the grass roots up, recognising each individual hotel team as the experts best placed to use their local knowledge for developing community and environmental initiatives that meet the specific needs of the destination. This Insider Collection gives delegates access to some of these unique experiences, and for those meetings that stay in the meeting room, you can be assured our hotel is working behind the scenes to protect what is special about the place for fellow travelers.

HELP A CHARITY OR LOCAL COMMUNITY ORGANIZATION

In this great team activity, delegates are split up into competing groups and challenged to locate specific sites in the local area where trained facilitators await to conduct team problem-solving initiatives. The prize for completing each challenge is a component of a child's bicycle, toy or soap-box go-kart. At the end of the session all the components will be assembled by the group and donated to charity. A fantastic way to build team morale and provide your delegates with a real sense of achievement.

BUILD BRIDGES – HELP LOCAL CHILDREN

For a practical and fun way to give your delegates some hands-on team-building experience, this innovative and interactive experience is a must.

The task facing delegate teams is to design and construct half a bridge using basic building materials. Coordination, communication and strategy are required when joining their bridge across a simulated river to another group's bridge. The true test comes when rugged remote-controlled vehicles (hopefully) travel successfully across the span. After the session, vehicles can be tuned up and donated to a local children's charity.
